Claire Lin

Junior Fullstack Developer

🌐 **Portfolio** | 💼 **LinkedIn** | 🐙 **Github**

I have recently shifted my career paths from art investments and the crypto field to becoming a full-stack developer. This career change decision is driven by my desire to become an active part of using technology to help create value for the world we live in.
My work and passion focus on building user-facing features with sophisticated design, being a creative problem solver, as well as learning new skills about the industry.
